We invite artists of all disciplines to participate in this international group exhibition, proudly reaching its third edition. This is not just a simple exhibition, but a deep exploration of the self through art. Share your inner vision and let your works speak for you. The interpretation of the theme is open. "**MetaVersum 3**", like the previous editions, will be hosted in an art gallery located in the Virtual World of Second Life, within the "**MET - MetaVersum Gallery**", from which the exhibition takes its name.

A project created with the aim of promoting artists through virtual exhibitions, this time culminating in a live streaming virtual tour to ensure web sharing for all and reach an audience across multiple platforms.
